

## CLOUD STRATEGY

We develop cloud strategies and execution plans. Our competency center has over 50 years of industry experience in information security, data analytics, cloud, and automation. We have been selected as the trusted partner for many key projects.

- Digital Infrastructure Assessment & Discovery
- Cloud Transformation Strategy
- System Integration Strategy

## CLOUD OPERATIONS

With hands-on experience across 100+ major projects, our accomplished certified specialists and consultants are key to what we offer:

- Optimization
- Cloud Migration
- RI, SP, and Spot Management
- Releases & Maintenance
- Well Architected Review (WAR)

## CLOUD OPTIMIZATION

We apply "Oak Rocket" to your cloud strategy and execution plan to optimize your cloud costs and operations. We can help you reduce cloud costs by up to 80%.

- Platform Customization
- Cost Optimization
- Cost Allocation
- Security Monitoring
- Inventory Reporting
- Utilization Metrics
- Automation

## CLOUD SECURITY

Oak Rocket has years of experience working with cybersecurity in a cloud environment. The cloud enables your team to access your data and applications from anywhere, which may make you feel uneasy. Our team will work with you to identify potential cybersecurity gaps and how to address them to prevent successful attacks.

- Identity and Access Management
- Threat Detection and Monitoring
- Data Protection
- Infrastructure Protection
- Compliance and Data Privacy

## Professional Services

Oak Rocket is a leading business technology consulting and services firm. Founded with the vision of unleashing the potential of the cloud we have grown into an advisor, agnostic solution developer, and technology strategy leader. Our diverse customer base, global presence, and extensive network of partners and gurus enable us to deliver thoughtful end-to-end solutions without the headaches.

## Managed Services

Maximize Cost savings from IT Operations and improve business agility. Get 24-hr end-to-end support across your infrastructure needs to keep your business running smoothly.

Microsoft Partner

Gold Cloud Platform

## Awards

“

With Oak Rocket's Storage Competency and their expertise in utilizing CloudCheckr and leveraging various resources at Ingram Micro, they have been able to increase their customer's RI coverage up to 80% utilization compared to the standard 40%-50%. This has led to Oak Rocket winning large customers and increasing their trust in the AWS community. Many of the industry's top companies are trusting Oak Rocket to provide not only traditional pro and managed services but financial well-being in the AWS world.”

Timothy Fitzgerald, Cloud Solution Executive (AWS), Ingram Micro Cloud

## CASE STUDY: Upgrading Data Retention for Planful

**CHALLENGE** Planful is the leading specialist provider of cloud-based enterprise performance management (EPM) applications for planning, consolidation, reporting, and analytics. They needed a budget-friendly upgrade to their current customer backup system that would allow for 60 days of data retention instead of 28 days.

**SOLUTION** Our experts utilized local storage, S3, and Glacier in creating a 60-day rotation for customer data and set up a Direct Connect line to the AWS. Our team also created cross-region replication to support cloud-based Disaster Recovery Support.

### SERVICE

- Infrastructure assessment
- Rotational data method
- AWS Cloud Integration
- Disaster Recovery solution

### RESULT

- 98% cost reduction, from \$1.73/GB to \$0.03/GB
- Double data retention period from 28 to 60 days
- Minimizing RTO time (from 4 hours to 1 hour)ICE
